## Foreword

This Danish lichen checklist is based on “Checkliste og status over Danmarks laver” by Vagn Alstrup and Ulrik Søchting published in 1989 by the Nordic Lichen Society (NLF), and the later Danish Lichen Checklist. Version 1 published 2002.

The checklist was originally based on voucher specimens located in the Botanical Museum, Copenhagen (C) and other herbaria, as well as reliable literature records. However, all additions and changes accepted in version 2 are based on records published since version 1.

The list is also accessible via the internet at the address: <http://www.bi.ku.dk/lichens/dkchecklist/>. The Internet version also includes maps of occurrence, search facilities for species epithets of accepted species and synonyms, literature references, status according to the IUCN system, and photos of a number of species.

The nomenclature has been updated and additional vernacular names have been included in accordance with names used in Danish literature.

The information on the status of occurrence stems from the original checklist and has not been updated according to IUCN red list definitions. IUCN status of the species will be included on the Internet version as soon as they have been established.

The list of accepted species is followed by a list of synonyms arranged alphabetically according to species epithet. Each synonym refers to the accepted name.

*Acarospora nitrophila* H. Magn.  
*Acarospora peliscypha* Th. Fr.  
*Acarospora smaragdula* (Wahlenb.) A. Massal.  
*Acarospora smaragdula* v. *lesdainii* (Harm. ex A. L. Sm.) H. Magn.  
*Acarospora veronensis* A. Massal.  
*Acarospora versicolor* Bagl. & Carestia

## Acrocordia

*Acrocordia cavata* (Ach.) Ach.  
*Acrocordia conoidea* (Fr.) Körb.  
*Acrocordia gemmata* (Ach.) A. Massal.

## Adelolecia

*Adelolecia pilati* (Hepp) Hertel & Hafellner

## Agonimia

*Agonimia allobata* (Stizenb.) P. James  
*Agonimia globulifera* Brand & Diederich  
*Agonimia tristicula* (Nyl.) Zahlbr.  
*Agonimia vouauxii* (de Lesd.) Brand & Diederich

## Alectoria

*Alectoria sarmentosa* ssp. *vexillifera* (Nyl.) D. Hawksw.

## Anaptychia

*Anaptychia ciliaris* (L.) Körb.  
*Anaptychia ciliaris* subsp. *mamillata* (Taylor) D. Hawksw. & P. James  
*Anaptychia runcinata* (With.) J. R. Laundon

## Anisomeridium

*Anisomeridium biforme* (Borrer) R. C. Harris  
*Anisomeridium polypori* (Ellis & Everh.) M. E. Barr  
*Anisomeridium ranunculospora* (Coppins & P. James) Coppins

## Arctoparmelia

*Arctoparmelia incurva* (Pers.) Hale

## Arthonia

*Arthonia anombrophila* Coppins & P. James  
*Arthonia byssacea* (Weigel) Almq.  
*Arthonia cinnabarina* (DC.) Wallr.  
*Arthonia didyma* Körb.  
*Arthonia dispersa* (Schrad.) Nyl.  
*Arthonia exilis* (Flörke) Sandst.  
*Arthonia lapidicola* (Tayl.) Branth & Rostrup
